Experience:

- ** 2003-2009
Dayton International Airport
Various Projects, including:
-ATCT Preparation Project
-Terminal Gate Improvement Project, Contract 1 and 3
-Cargo Road Overflow Parking Lot
-Runway 6R RSA Extension
-Airfield Pavement Improvements
-West Perimeter Road Extension
-Terminal Drive Improvements
-South Perimeter Road, Part A & B

These projects involved concrete pavements, excavation, embankment, drainage improvements by grading and storm pipe installation, landscaping, and miscellaneous roadway work. I was responsible for direct supervision of the labor force, ordering material, subcontractor coordination and scheduling. In addition, I was responsible for the quality of work and complete compliance with all aspects of plans and specifications.

- ** 2002
ODOT 111(02), Greene County
USR 35 Interchange @ N. Fairfield

The project involved moving 500,000 cy of dirt, installing drainage, curb, extensive landscaping, & installing 3 bridges. A 2 span (96'-6", 96'-6") bridge, another 2 span (115', 115') bridge, and the last bridge a 3 span (68', 97', 68'). As project superintendent, I was responsible for direct supervision of the labor force, ordering material, subcontractor coordination and scheduling. In addition, I was responsible for the quality of work and complete compliance with all aspects of plans and specifications.

** 2001
ODOT 300(01), Greene County
S. R. 444 Resurfacing – 2-Lane

The project involved over 10,000 sy of concrete pavement. As project superintendent, I was responsible for direct supervision of the labor force, ordering material, subcontractor coordination and scheduling. In addition, I was responsible for the enforcement of the SWP3 that was prepared by ODOT.

** 2000
P.A.T.H., Phase I & II
City of Piqua, Ohio

The project involved 12,000 cy of dirt & 4 miles of grading & stoning for bike path. As project superintendent, I was responsible for direct supervision of the labor force, ordering material, subcontractor coordination and scheduling.

** 2000
ODOT 319(00), Montgomery County, Ohio
Turner Road Extension

I was responsible for the dirt crew, which involved 20000 cy of excavation, 30,000 cy of embankment, grading for 16,000 lf of curb & grading for 4,400 lf of 2-lane pavement.

** 1999
