Experience:

** Operating Experience

Throughout my construction career, I have had extensive experience operating heavy equipment. I am proficient at operating the following:

- Bull Dozers - all sizes to perform tasks such as finish grading, road work, and ditch work
- Track Hoes – all sizes, to perform tasks such as ditch work, grading, clearing and grubbing, excavation, and all sizes of pipe installation up to over 25' deep
- Backhoe – all sizes, to perform tasks such as ditch work, grading, back filling, and excavation

** City of Vandalia

The project involved 500' of 40' deep sewer installation. As Project Superintendent, I was responsible for the coordination of subcontractors, ordering materials, direct supervision of the labor force, scheduling & project management.

** City of West Carrollton

The project involved 6,000' water main replacement and street replacement. As Project Superintendent, I was responsible for the coordination of subcontractors, ordering materials, direct supervision of the labor force, scheduling & project management.

** Meijer, Tipp City, Ohio

The project involved moving 800,000 cy of dirt & rock. As Project Superintendent, I was responsible for the coordination of subcontractors, ordering materials, direct supervision of the labor force, scheduling & project management.
